Hi Raji -

Thanks for your response and input. Attached is the final version of PBW's QMP that incorporates the redline changes you approved. Please let me know if you have any questions or comments.

Best Regards.

Eric

Thanks for the reminder through Matt. I finally got a chance to go through the PBW QMP rev 3 dated 2-14 and it adequately addresses the items I had raised. Don't have further comments. Thanks.

Hi Adam and Raji -

Did you have any comments on this redline/strikeout revision that I prepared to address your previous comments? Sorry to bother you, I am just wondering if I can finalize and resubmit this.

Thanks.

Eric

Hi Adam and Raji -

Thanks for your comments on our QMP. Attached in redline/strikeout are our proposed revisions to address those comments. Could you please review these revisions and let us know if they provide the information you are looking for or if you would like to see any additional changes? Once we have an acceptable redline/strikeout version, I will prepare a clean, final, and signed version for submittal to you.

Thanks again.

Adam and Ed

I did a quick run through and checked it against EPA Requirements for QMPs EPA QA/R-2 and it matches up well other than the following.

4.0 Procurement of Items and Services

- Didn't see the following being addressed " - ensuring that procured items and services are of acceptable quality, including the review of objective evidence of quality for applicable items and services furnished by suppliers and subcontractors, source selection, source inspections, supplier audits, and examination of deliverables;"

5.0 Documents and Records

- Didn't see the following being addressed " - establishing and implementing appropriate chain of custody and confidentiality procedures for evidentiary records."

6.0 Computer Hardware and Software

- Will SCRIBE fall under the language they have specified or does it need to be somehow spelled out?
- What about sharing information through an FTP site?

9.0 Assessment and Response

- Didn't see the following being addressed
"- addressing any disputes encountered as a result of assessments."

Adam, hope that helps.

Can I let you know on Friday? I didn't see any major issues, but I'd like to double check a few things?
Also, want to make sure Raji is on-board.

Thanks

Adam
